Stages of Change

The *Stages of Change* Model is an innovative approach to respond to motivational issues facing job seekers with the potential to resolve ambivalence and transition individuals towards an effective job search and sustainable employment.

How does it work?

Using the *Stages of Change* Model, we provide client-centered pre-employment services to assess and develop the desire of participants to seek meaningful work.

Working one-on-one with a facilitator, participants can safely explore the ambivalence they may be experiencing in relation to entering the labour market.
